

List of busiest airports by passenger traffic

The **world's busiest airports by passenger traffic** are measured by total passengers (data from [Airports Council International](#)), defined as passengers enplaned plus passengers deplaned plus direct-transit passengers. [Hartsfield–Jackson Atlanta International Airport](#) has been the world's busiest airport every year since 2000; with all airports combined [London](#) has the [world's busiest city airport system](#) by passenger count. As of 2016, seven countries have at least two airports in the top 50; the United States of America has 16, mainland China has 7, and the United Kingdom, Japan, Germany, India and Spain have two airports each.
